

Princeton Public Schools
Strategic Planning Goals
2015 - 2020

- Create a culture in our schools of **wellness and balance** for students and staff.
- Ensure that **every child is known** by promoting relationships and instruction that recognize the potential, the passions, the readiness levels and the learning styles of every student
- Promote equity and access in ways that effectively **eliminate the "achievement" or opportunity gap.**
- Inspire **innovation and experimentation** in both teaching and learning
- Promote a culture of **care, connectedness, and communication** across the district, between home and school, and throughout our broader community.
